SPR has been my primary job board for the past year now. We not only have received positive candidates that have qualified for our position needs, but the one on one interaction with Mr. Lee Miller has been a wonderful experience in helping with my "hard to fill needs". I would highly recommend SPR to anyone seeking to hire professionals!!

Create your own CV Agents to do the work for you

**We know that many of
our members are forced to
wear many different hats and
cannot just recruit full time.**

Now you can set up these “CV Agents” and all you have to do is check your email every morning to see what matching candidates registered yesterday and are looking for a job today!” With our system, you can create five separate “CV Agents”.

Think of the CV Agents as your own personalized search agents. Set up each with different specialized search criteria. Each morning, your CV Agent will email you an updated list of every job seeker that applied the day before, that meets the criteria you laid out.

This offers you the ability to data mine in real time and each morning have the most up to date searches possible. No other site offers this sort of personalized and customizable service.
